New audiovisual system revamps whole gym

THE GYM in Winsford, Cheshire has invested in a new audiovisual system as part of on-going improvements to the club's facilities.

Cheshire-based Leisure Sound Solutions supplied four 28-inch wide screen TVs, a Free View receiver, five disc CD changer and a state of the art sound system linked to every room in the club.

Gym owner, Jason Young said: "It's fantastic, I'm really pleased.

"We used to have a basic home CD system in here but the new kit has completely revamped the whole place.

"It's really boosted the atmosphere, I'm well chuffed with it."

A gym member commented: "It's ten times better in here now."

Leisure Sound Solutions were formed in April 2004 by former Atmospheric northern business manager, Alan Cuthbert.

The company are an official supplier of Audion cardio entertainment and have equipped the Technogym Excite range in the leisure suite at The Village Hotel, Leeds.
